Dear Young Scientists Team,

Subject: Congratulations to the "The Young Scientists"

At the outset, I would like to congratulate your organization for bringing out such an excellent science comic series for children. We find that children in our group of schools love reading them and eagerly look forward to every issue of it.

The very fact that almost 2000 children in our schools buy "The Young Scientists" says a lot about your product. The colorful comic strips are really very effective for "Learning through Fun" and promote reading habit in children.

We have also allocated a separate class period wherein the teacher shares the stories from your series with the children in the class. We are very happy to have engaged with your organization and hope you will continue to provide such excellent content for children.

We will definitely recommend that every child in primary school read "The Young Scientists".

Sincerely Yours,

Shri J. Arawindhan  
CEO  
Achariya Siksha Mandir  
Pondicherry
